

Wedding Mapper is not just about wedding maps (although we do have a great wedding map product!)

Wedding Mapper is a community built around honest and verifiable content that comes straight from couples who use our website.

Wedding Mapper's engaging, user-generated content covers more local areas, in more places around the world, than any other wedding website.

About Wedding Mapper

Innovative Wedding Planning Tools

Wedding Mapper launched in January 2007 as a site for engaged couples to create an interactive and customizable wedding map to share with guests. Since then, **Wedding Mapper** has expanded to include a suite of new and unique tools that make planning a wedding easier than ever.

Honest User-Generated Content

Thousands of real wedding profiles including descriptions, photos, venue recommendations and vendor reviews, serve as a great resource for future engaged couples.

Bella Floral Design

"Bella Flora Design created beautiful flowers for our wedding."

4 ratings
3 reviews
7 weddings

Global Reach

Wedding Mapper is used world wide, allowing for content in over 12,000 locales. Engaged couples can find wedding vendors and venues, browse real weddings, access upcoming wedding events and connect with other couples in their wedding area.

Leader in Search Engine Optimization

Wedding Mapper has more pages indexed by search engines than any other wedding planning site. SEO is a big driver of organic traffic growth and enhances viral marketing efforts.

Pages Indexed by Google (updated 1/10)

Cost Effective Advertising Solutions

With self-service vendor profiles and an auction-based advertising platform, **Wedding Mapper** makes it easy and inexpensive for local vendors to target engaged couples in local service areas and drive qualified business leads.

Real Brides. Real Content.

Wedding Mapper's site is 100% user generated. Engaged couples, newlyweds and vendors contribute to the community by posting photos, wedding descriptions, ratings and reviews of venues and vendors, message board topics, upcoming events and more.

Advertising

Wedding Mapper offers a variety of options for local vendors and national advertisers to reach a highly qualified audience of brides at various stages in the planning process. Wedding Mapper's self-service advertising allows advertisers to target messages in the local markets based on a dynamic pricing model that adjusts pricing based on traffic and number of other bidders.

National Advertising

Banners

Wedding Author Sharon Naylor's Blog

"As a wedding author, I've recommended the top websites to my readers in all of my 35 wedding books, and when it came time to planning my own wedding, I knew my groom was going to LOVE working on the wedding maps with me. We opened up WeddingMapper.com and we had a fantastic time entering our ceremony and reception site, the hotels for our guests, and our own home for the rehearsal dinner - and it was so easy and efficient, with easy sends to our friends and family, easy updates, and the very fun attraction of satellite view which we and our guests loved! [Wedding Mapper](http://WeddingMapper.com) saved us a ton of time (and paper!) getting our locations and easy to-and-from directions to our far-flung guests in record time. I highly recommend [Wedding Mapper](http://WeddingMapper.com) to every bride and groom! You'll love working on this together!"
